## **3M United Kingdom Plc**

### **EC Directive 89/686/EEC**

#### **EC Type-examination**

Issue 1.

#### **PPE Product**

3M 4530 Coverall, blue hooded coverall with a white triangular back panel, sewn seams, knitted cuffs, a two-way slide fastener with a storm flap secured with double sided tape and elasticated at the hood, waist & ankles, which is available in four nominal sizes.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC. When examined the PPE satisfied the requirements of the relevant harmonized standards: EN ISO 13982-1:2004 for the performance classification of Type 5: Limited wear life, full body protection against airborne solid particulates; EN 13034:2005 for the classification of Type 6: Limited wear life, full body chemical protective clothing providing protection against airborne solid particulates.

In addition the fabric met the requirements given in EN 533:1997 for a classification of Index 1/0 and EN 1149-1:1995 for electrostatic dissipative protective clothing on both surfaces.

The manufacturer's information notice (Section 9 of the technical file), in English, has been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file reference:  
TF0197, issue dated 19/02/2010.
